* declaration of RIT,
CANB TM - get one

Problems:

① Search fer: on home, doesn't go to graphs tab

② Date Range broken

③ Search by broken

④ Pick List broken

→ ⑤ Default order on graphs wrong (T, RH...),

→ ⑥ No limit lines on graphs

→ ⑦ graphs, (print, email, etc)

→ ⑧ AutoScale on graphs not working

→ ⑨ Overview - Risks + metrics & links don't work (TWRP), etc)

→ ⑩ Overview → Risk → several → goes to graphs instead of indiv. view
(same as Statistics)

⑪ Mold → Mold Risk - (change text)

→ ⑫ Compare: click name → metrics, click T/RH/etc go to graphs

→ ⑬ Storage Planning → tree needs to go away

→ ⑭ DP Calc to be default 1st in list

→ ⑮ Eval. Loc. ⇒ matching loc ⇒ code in text,

→ ⑯ " links need to go to Risk + metrics w/ tab

→ ⑰ Eval Loc ⇒ date range missing

→ ⑱ Explore mat. ⇒ links to go to overview, not graphs
⇒ show material description? link?

→ ⑲ Note Manager ⇒ nothing yet

⇒ smiley editor instead of plain box -

→ ⑳ DM - no export, no icons, dropdown wrong, need lines

missing Jump To

save all, import all
